KR10 race time includes approximately 45-minute period when the 55-lap race was suspended. The alternate speed for a 52-lap race that would eliminate the lap containing the suspension as well as the laps immediately preceding and following it would be 154.093 km/h.

MC11 race time includes approximately 20-minute period when the 78-lap race was suspended. The alternate speed for a 75-lap race that would eliminate the lap containing the suspension as well as the laps immediately preceding and following it would be 145.071 km/h.

CA11 race time includes approximately 2-hour period when the 70-lap race was suspended. The alternate speed for a 67-lap race that would eliminate the lap containing the suspension as well as the laps immediately preceding and following it would be 152.510 km/h.

MY12 race time includes approximately 50-minute period when the 56-lap race was suspended. The alternate speed for a 53-lap race that would eliminate the lap containing the suspension as well as the laps immediately preceding and following it would be 165.326 km/h.

MC13 race time includes approximately 20-minute period when the 78-lap race was suspended. The alternate speed for a 75-lap race that would eliminate the lap containing the suspension as well as the laps immediately preceding and following it would be 137.667 km/h.

GB14 race time includes approximately 1-hour period when the 52-lap race was suspended. The alternate speed for a 49-lap race that would eliminate the lap containing the suspension as well as the laps immediately preceding and following it would be 213.130 km/h.

JP14 race time includes approximately 18-minute period when the 44-lap race was suspended. The alternate speed for a 41-lap race that would eliminate the lap containing the suspension as well as the laps immediately preceding and following it would be 170.209 km/h.

AU16 race time includes approximately 20-minute period when the 57-lap race was suspended. The alternate speed for a 54-lap race that would eliminate the lap containing the suspension as well as the laps immediately preceding and following it would be 206.827 km/h.

BE16 race time includes approximately 20-minute period when the 44-lap race was suspended. The alternate speed for a 41-lap race that would eliminate the lap containing the suspension as well as the laps immediately preceding and following it would be 213.660 km/h.

BR16 race time includes approximately 1-hour period when the 71-lap race was suspended on two separate occasions. The alternate speed for a 65-lap race that would eliminate the laps containing the suspension as well as the laps immediately preceding and following it would be 151.904 km/h.

AZ 2017 race time includes approximately 22-minute period when the 51-lap race was suspended. The alternate speed for a 48-lap race that would eliminate the laps containing the suspension as well as the laps immediately preceding and following it would be 183.159 km/h.
